## 4. FIRST AID MEASURES

---

### Description of First Aid Measures

**Inhalation:** If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get immediate medical attention.

**Skin Contact:** Remove contaminated clothing, jewelry, and shoes immediately. Wipe all material off skin before washing. Wash with soap or mild detergent and large amounts of water until no evidence of chemical remains (at least 15 to 20 minutes). Get medical attention, if needed.

**Eye Contact:** Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical attention.

**Ingestion:** DO NOT induce vomiting. If vomiting occurs, keep head lower than hips to help prevent aspiration. Get medical attention.

**Most Important Symptoms/Effects, Acute and Delayed:** Exposure may irritate the eyes, skin, and respiratory system.

**Indication of any immediate medical attention and special treatment needed, if necessary:** If any of the above symptoms are present, seek immediate medical attention.

---

## 5. FIRE FIGHTING MEASURES

---

**Fire and Explosion Hazards:** Negligible fire hazard. See Section 9, "Physical and Chemical Properties" for flammability properties.

### Extinguishing Media

Suitable: Dry chemical, carbon dioxide, foam or water spray is recommended.

Unsuitable: None listed.

**Specific Hazards Arising from the Chemical:** Not applicable.

**Special Protective Equipment and Precautions for Fire-Fighters:** Move container from fire area if it can be done without personal risk. Avoid inhalation of material or combustion by-products. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus (SCBA).

**NFPA Ratings** (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)

Health = 0

Fire = 1

Reactivity = 0

---

## 6. ACCIDENTAL RELEASE MEASURES

---

**Personal Precautions, Protective Equipment and Emergency Procedures:** Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection".

**Methods and Materials for Containment and Clean up:** Do not touch spilled material. Absorb with sand or other non-combustible material and collect in appropriate container for proper disposal.

---

## 7. HANDLING AND STORAGE

---

**Safe Handling Precautions:** Use suitable personal protection equipment (PPE). See Section 8, "Exposure Controls and Personal Protection".

**Storage and Incompatible Materials:** Store and handle in accordance with all current regulations and standards. Keep separated from incompatible substances.

---

## 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

**Exposure Limits:** There are no occupational exposure limits established for white mineral oil. The exposure limits for oil mists (if generated) are provided below as a reference.

ACGIH (TLV):     5 mg/m<sup>3</sup> (TWA)  
                      10 mg/m<sup>3</sup> (STEL)

**Engineering Controls:** Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

**Personal Protection Measures:** In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate PPE to minimize exposure to this material.

**Respiratory Protection:** If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

**Eye Protection:** Splash resistant safety goggles and emergency eyewash are recommended.
