Product Identifier

SRM Number: 3064

SRM Name: Endothall in Water

Under the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) 29 CFR 1910.1200, this Standard Reference Material (SRM) is NOT classified as a physical hazard or a health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified. There are no hazard pictograms, hazard statements or signal word associated with it. Safety Data Sheet information is not required. This document may be used in conjunction with your hazard communication program.

Description: This Standard Reference Material (SRM) is a solution of endothall (Chemical Abstracts Service Registry Number 145-73-3) in water. This SRM is intended primarily for use in the calibration of chromatographic instrumentation used for the determination of endothall. SRM 3064 can also be used to fortify aqueous samples with known amounts of endothall. A unit of SRM 3064 consists of five 2-mL ampoules, each containing approximately 1.2 mL of water with trace amounts of endothall.

Disposal: SRM 3064 should be disposed of in accordance with local, state, and federal regulations.

Transport Information: This material is not regulated by the U.S. Department of Transportation (DOT) and/or International Air Transportation Association (IATA).

Disclaimer: This document was prepared carefully, using current references. Users of this SRM should ensure that this document and the corresponding Certificate of Analysis in their possession are current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
