SAFETY DATA SHEET

1. SUBSTANCE AND SOURCE IDENTIFICATION

Product Identifier

RM Number: 8491

RM Name: Sugarcane Bagasse Whole Biomass Feedstock

Other Means of Identification: Not applicable.

Recommended Use of This Material and Restrictions of Use

This Reference Material (RM) is intended primarily for use in evaluating analytical methods for the determination of summative composition of lignocellulosic material. The RM can also be used for quality assurance when assigning values to in-house control materials. The whole herbaceous biomass material is derived from sugarcane bagasse (Saccharum spp.). A unit of the RM consists of five single use Mylar bags of whole biomass, each containing approximately 10 g of material.

Company Information

2. HAZARDS IDENTIFICATION

Note: This processed material is intended for laboratory use only; not for human consumption. RM 8491 is supplied in a small quantity and under normal laboratory conditions it does not constitute a combustible dust hazard. The physical properties of this material indicate that accumulated dust on surfaces generated where operations produce fine particulates, may lead to combustible dust concentrations in air.

Classification

Physical Hazard: Not classified. Health Hazard: Not classified.

Label Elements Symbol No Symbol Signal Word

No Signal Word **Hazard Statement(s):** Not applicable.

Precautionary Statement(s): Not applicable.

Hazards Not Otherwise Classified: Not applicable.

Ingredients(s) with Unknown Acute Toxicity: Not applicable.

3. COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

Substance: Sugarcane Bagasse Other Designations: Not applicable

RM 8491 Page 1 of 5 Components are listed in compliance with OSHA's 29 CFR 1910.1200.

Hazardous Component(s)	CAS Number	EC Number (EINECS)	Nominal Mass Concentration (%)
Sugarcane Bagasse	Not applicable	Not applicable	100

4. FIRST AID MEASURES

Description of First Aid Measures:

Inhalation: If adverse effects occur, remove to uncontaminated area. If not breathing, give artificial respiration or oxygen by qualified personnel. Seek immediate medical attention.

Skin Contact: Wash skin with soap and water for at least 15 minutes. Thoroughly clean and dry contaminated clothing before reuse.

Eye Contact: Flush eyes with water for at least 15 minutes. If necessary, seek medical attention.

Ingestion: If adverse effects occur after ingestion, seek medical treatment.

Most Important Symptoms/Effects, Acute and Delayed: Skin or eye mechanical irritation.

Indication of any immediate medical attention and special treatment needed, if necessary: If any of the above symptoms are present, seek medical attention if needed.

5. FIRE FIGHTING MEASURES

Fire and Explosion Hazards: Avoid generating dust; sufficient concentrations of fine dust dispersed in air, and in the presence of an ignition source is a potential hazard. See Section 9, "Physical and Chemical Properties" for flammability properties.

Extinguishing Media:

Suitable: Regular dry chemical, carbon dioxide, water, and regular foam.

Unsuitable: None listed.

Specific Hazards Arising from the Chemical: None listed.

Special Protective Equipment and Precautions for Fire-Fighters: Avoid inhalation of material or combustion byproducts. Wear full protective clothing and NIOSH approved self-contained breathing apparatus (SCBA).

NFPA Ratings (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)

Health = 0 Fire = 0 Reactivity = 0

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Any accumulated material on surfaces should be removed and properly disposed of. Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection".

Methods and Materials for Containment and Clean up: Do not touch spilled material. Notify safety personnel of spills. Collect spilled material in appropriate container for disposal. Isolate hazard area and deny entry.

7. HANDLING AND STORAGE

Safe Handling Precautions: Minimize dust generation and accumulation on surfaces. See Section 8, "Exposure Controls and Personal Protection".

Storage: Store and handling in accordance with all current regulations and standards. Keep separated from incompatible substances (oxidizing materials).

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits: This material is a particulate matter and adequate inhalation/respiratory protection should be used to minimize exposure. No occupational exposure limits have been established for sugarcane bagasse. The exposure limits for Particulates Not Otherwise Regulated are applicable.

OSHA (PEL): 15 mg/m³ (TWA, total particulates not otherwise regulated) 5 mg/m³ (TWA, respirable particulates not otherwise regulated)

RM 8491 Page 2 of 5

Engineering Controls: Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

Personal Protection: In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material.

Respiratory Protection: If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

Eye/Face Protection: Wear splash resistant safety goggles with a face shield. An eye wash station should be readily available near areas of use.

Skin and Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Chemical-resistant gloves should be worn at all times when handling chemicals.

9. PHYSICAL AND CHEMICAL PROPERTIES

Descriptive Properties:	Sugarcane Bagasse			
Appearance (physical state, color, etc.):	powder			
Molecular Formula:	Not applicable			
Molar Mass (g/mol):	Not applicable			
Odor:	Not available			
Odor threshold:	Not available			
pH:	Not available			
Evaporation rate:	Not applicable			
Melting point/freezing point (°C):	Not available			
Relative Density (g/L):	Not available			
Vapor Pressure (mmHg):	Not applicable			
Vapor Density (air = 1):	Not applicable			
Viscosity (cP):	Not applicable			
Solubility(ies):	Not available			
Partition coefficient (n-octanol/water):	Not available			
Particle Size (if relevant):	Not available			
Thermal Stability Properties:				
Autoignition Temperature (°C):	Not available			
Thermal Decomposition (°C):	Not available			
Initial boiling point and boiling range (°C):	Not available			
Explosive Limits, LEL (Volume %):	Not available			
Explosive Limits, UEL (Volume %):	Not available			
Flash Point (°C):	Not available			
Flammability (solid, gas):	Not available			
10. STABILITY AND REACTIVITY				
Reactivity: Stable at normal temperatures and press	ure.			
Stability: X Stable Unstable				
Possible Hazardous Reactions: None listed.				
Conditions to Avoid: Avoid generating dust. Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials.				
Incompatible Materials: None reported.				

RM 8491 Page 3 of 5

Fire/Explosion Information: See Section 5, "Fire Fighting Measures".

Hazardous Decomposition: Thermal decomposition will produce oxides of carbon.				
Hazardous Polymerization: Will Occur X Will Not Occur				
11. TOXICOLOGICAL INFORMATION				
Route of Exposure: X Inhalation X Skin X Ingestion				
Symptoms Related to the Physical, Chemical and Toxicological Characteristics: No data available.				
Potential Health Effects (Acute, Chronic and Delayed):				
Inhalation: No data available.				
Skin Contact: No data available; skin exposure may result in mechanical irritation.				
Eye Contact: No data available; may cause mechanical irritation.				
Ingestion: No data available.				
Numerical Measures of Toxicity:				
Acute Toxicity: Not classified; no data available.				
Skin Corrosion/Irritation: Not classified; no data available.				
Serious Eye damage/ Eye irritation: Not classified; no data available.				
Respiratory Sensitization: Not classified; no data available.				
Skin Sensitization: Not classified; no data available.				
Germ Cell Mutagenicity: Not classified; no data available.				
Carcinogenicity: Not classified. Listed as a Carcinogen/Potential Carcinogen Sugarcane bagasse is not listed by NTP, IARC or OSHA as a carcinogen. Yes X No				
Reproductive Toxicity: Not classified; no data available.				
Specific Target Organ Toxicity, Single Exposure: Not classified; no data available.				
Specific Target Organ Toxicity, Repeated Exposure: Not classified; no data available.				
Aspiration Hazard: Not classified; no data available.				
12. ECOLOGICAL INFORMATION				
Ecotoxicity Data: No data available				
Persistence and Degradability: No data available.				
Bioaccumulative Potential: No data available.				
Mobility in Soil: No data available.				
Other Adverse effects: No data available.				
13. DISPOSAL CONSIDERATIONS				
Waste Disposal: Dispose of waste in accordance with all applicable federal, state, and local regulations.				
14. Transportation Information				
U.S. DOT and IATA: Not regulated by DOT or IATA.				
15. REGULATORY INFORMATION				
U.S. Regulations:

Disclaimer: Physical and chemical data contained in this SDS are provided only for use in assessing the hazardous nature of the material. The SDS was prepared carefully, using current references; however, NIST does not certify the data in the SDS. The certified values for this material are given in the NIST Report of Investigation.

Users of this RM should ensure that the SDS in their possession is current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at http://www.nist.gov/srm.
