

SAFETY DATA SHEET

1. SUBSTANCE AND SOURCE IDENTIFICATION

Product Identifier

SRM Number: 2273

SRM Name: Chlorinated Pesticides (DDTs) and Metabolites in Isooctane

Other Means of Identification: Not applicable.

Recommended Use of This Material and Restrictions of Use

This Standard Reference Material (SRM) is a solution of seven DDT and DDT related compounds in 2,2,4-trimethylpentane (isooctane) intended primarily for use in the calibration of chromatographic instrumentation. A unit of SRM 2273 consists of five 2 mL ampoules, each containing approximately 1.2 mL of solution.

2. HAZARDS IDENTIFICATION

Classification

Physical Hazard:Flammable liquidCategory 2Health Hazard:Skin Corrosion/IrritationCategory 2Eye IrritationCategory 2BSTOT, Single ExposureCategory 3Aspiration HazardCategory 1

Label Elements

Signal Word DANGER

Hazard Statement(s)

H225 Highly flammable liquid and vapor.

H304 May be fatal if swallowed and enters airways.

H315+H320 Causes skin and eye irritation. H336 May cause drowsiness or dizziness.

Precautionary Statement(s)

P210 Keep away from heat, sparks, open flames, hot surfaces. — No smoking.

P233 Keep container tightly closed.

P241 Use explosion-proof electrical, ventilating, and lighting equipment.

P242 Use only non-sparking tools.

P243 Take precautionary measures against static discharge.

P261 Avoid breathing mist, vapors, or spray.
P264 Wash hands thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves, eye protection, and protective clothing.

SRM 2273 Page 1 of 6

| P301+P310 P331 | If swallowed: Immediately call a doctor. Do NOT induce vomiting. |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| P303+P361+P353 | If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water. |
| P305+P351+P338 | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P332+P337+P313 | If skin or eye irritation occurs: Get medical attention. |
| P304+P340 P312 | If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. |
| P362+P364 | Take off contaminated clothing and wash it before reuse. |
| P403+P235+P233 P405 | Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store locked up. |
| P501 | Dispose of contents and container according to local regulations. |

Hazards Not Otherwise Classified: None.

Ingredients(s) with Unknown Acute Toxicity: None.

3. COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

Substance: 2,2,4-Trimethylpentane

Other Designations: Isooctane; isobutyltrimethylmethane

This material contains trace amounts of DDT and DDT related compounds. The concentrations are below the reportable limit for hazardous components (1 % or greater) and carcinogens (0.1 % or greater), required by OSHA, 29 CFR 1910.1200 (g)(2)(i)(C)(1), for SDS information. For actual concentrations, see the NIST Certificate of Analysis.

| Hazardous Component(s) | CAS Number | EC Number (EINECS) | Nominal Mass Concentration (%) |
|------------------------|------------|-----------------------|--------------------------------|
| 2,2,4-Trimethylpentane | 540-84-1 | 208-759-1 | >99 |

4. FIRST AID MEASURES

Description of First Aid Measures

Inhalation: If adverse effects occur, remove to well-ventilated (uncontaminated) area. Give artificial respiration if not breathing. Get immediate medical attention.

Skin Contact: Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Thoroughly clean and dry before reuse. Get medical attention, if needed.

Eye Contact: Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical attention.

Ingestion: Aspiration hazard. Do not induce vomiting. If vomiting occurs, keep head lower than hips to help prevent aspiration. Get immediate medical attention. Give artificial respiration if not breathing.

Most Important Symptoms/Effects, Acute and Delayed: Respiratory tract irritation, aspiration hazard, central nervous system depression.

Indication of any immediate medical attention and special treatment needed, if necessary: If any of the above symptoms are present, seek immediate medical attention.

5. Fire Fighting Measures

Fire and Explosion Hazards: Severe fire hazard. The vapor is heavier than air. Vapor/air mixtures are explosive above the flash point. Vapors or gases may ignite at distant ignition sources and flash back. See Section 9, "Physical and Chemical Properties" for flammability properties.

Extinguishing Media

Suitable: Regular dry chemical, carbon dioxide, water, or alcohol-resistant foam.

Unsuitable: None listed.

SRM 2273 Page 2 of 6

Specific Hazards Arising from the Chemical: Not applicable.

Special Protective Equipment and Precautions for Fire-Fighters: Move container from fire area if it can be done without personal risk. Avoid inhalation of material or combustion by-products. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus (SCBA).

NFPA Ratings (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)

Health = 2 Fire = 3 Reactivity = 0

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection". Keep out of waters supplies and sewers.

Methods and Materials for Containment and Clean up: Avoid heat, flames, sparks and other sources of ignition. Stop leak if possible without personal risk, with water spray to reduce vapors. Absorb spilled material with sand or non-combustible material and collect in appropriate container for disposal.

7. HANDLING AND STORAGE

Safe Handling Precautions: See Section 8, "Exposure Controls and Personal Protection".

Storage and Incompatible Materials: Store in a well-ventilated area. Keep separated from incompatible substances (see Section 10, "Stability and Reactivity").

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits: No occupational exposure limits established.

Engineering Controls: Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

Personal Protection Measures: In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material.

Respiratory Protection: If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29 CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

Eye Protection: Splash resistant safety goggles and emergency eyewash are recommended.

Skin and Body Protection: Chemical resistant clothing and gloves are recommended.

STABILITY AND REACTIVITY **Reactivity:** Stable at normal temperatures and pressure. X Stable **Stability:** Unstable Possible Hazardous Reactions: Not applicable. Conditions to Avoid: Avoid heat, flames, sparks, and other sources of ignition. Minimize contact with material. Avoid inhalation of material or combustion by-products. Keep out of water supplies and sewers. **Incompatible Materials:** Oxidizing materials, reducing agents. Hazardous Decomposition: Oxides of carbon. X Will Not Occur **Hazardous Polymerization:** Will Occur 11. TOXICOLOGICAL INFORMATION X Skin X Ingestion **Route of Exposure:** X Inhalation Symptoms Related to the Physical, Chemical and Toxicological Characteristics: Skin irritation, eye irritation, central nervous system depression, and nerve damage. Potential Health Effects (Acute, Chronic, and Delayed) Inhalation: Acute exposure may cause irritation of the mucous membranes, rapid breathing, dizziness, fatigue, and headache. Extreme exposure may cause unconsciousness and respiratory arrest. Repeated and prolonged exposure may cause polyneuropathy. **Skin Contact:** Short term exposure may cause irritation with redness. If sufficient amounts are absorbed, systemic toxicity may occur. Long term exposure may cause dermatitis due to defatting action. **Eve Contact:** May cause irritation with redness. Ingestion: Aspiration hazard. Lung damage may occur if aspirated into the lungs and may be fatal. Symptoms may include coughing, difficulty breathing, cyanosis and pulmonary edema. May cause diarrhea, fatigue and slight central nervous system depression. **Numerical Measures of Toxicity** Acute Toxicity: Not classified. Rat, Oral, LD50: >2500 mg/kg Rat, Inhalation, LC50: 34.7 mg/L (4 h); 47.4 mg/L (1 h) **Skin Corrosion/Irritation:** Category 2; may cause irritation, redness, and defatting of the skin. **Serious Eye Damage/Eye Irritation:** Category 2B; may cause irritation with redness. **Respiratory Sensitization:** Not classified; no data available. **Skin Sensitization:** Not classified; no data available. Germ Cell Mutagenicity: Not classified. Rat: 500 mg/kg Carcinogenicity: Not classified. Listed as a Carcinogen/Potential Carcinogen Yes No 2,2,4-Trimethylpentane is not listed by IARC, NTP, or OSHA as a carcinogen/potential carcinogen.

SRM 2273 Page 4 of 6

Reproductive Toxicity: Not classified; no data available.

STOT, Single Exposure: Category 3, has shown to cause central nervous system depressant.

STOT, Repeated Exposure: Not classified; no data available.

Aspiration Hazard: Category 1; aspiration hazard.

12. ECOLOGICAL INFORMATION

Ecotoxicity Data: No data available.

Persistence and Degradability: No data available. **Bioaccumulative Potential:** No data available.

Mobility in Soil: No data available.

Other Adverse effects: No data available.

13. DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with all applicable federal, state, and local regulations. Subject to hazardous waste regulations US EPA 40 CFR 262: Hazardous waste number D001.

14. TRANSPORTATION INFORMATION

U.S. DOT and IATA: UN1262; Octanes; Hazard Class 3; Packing Group II.

Disclaimer: Physical and chemical data contained in this SDS are provided only for use in assessing the hazardous nature of the material. The SDS was prepared carefully, using current references; however, NIST does not certify the data in the SDS. The values for this material are given in the NIST Certificate of Analysis.

Users of this SRM should ensure that the SDS in their possession is current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at http://www.nist.gov/srm.
