SAFETY DATA SHEET

1. SUBSTANCE AND SOURCE IDENTIFICATION

Product Identifier

SRM Number: 338

SRM Name: White cast iron (Carbon & Sulfur) Other Means of Identification: Not applicable.

Recommended Use of This Material and Restrictions of Use

This Standard Reference Material (SRM) is in the form of a fine, water-atomized powder with a particle size between 0.045 mm (325 mesh sieve) and 0.10 mm (145 mesh sieve) and is intended for use in calibrating instruments used in the determination of carbon and sulfur. A unit of SRM 338 consists of a bottle containing 150 g of material.

Company Information

National Institute of Standards and Technology Standard Reference Materials Program 100 Bureau Drive, Stop 2300 Gaithersburg, Maryland 20899-2300

Telephone: 301-975-2200 Emergency Telephone ChemTrec: FAX: 301-948-3730 1-800-424-9300 E-mail: SRMMSDS@nist.gov +1-703-527-3887 Website: http://www.nist.gov/srm

2. HAZARDS IDENTIFICATION

Classification

Physical Hazard: Not classified. Health Hazard: Not classified.

Label Elements

Symbol

No Symbol/Pictogram

Signal Word Not applicable.

Hazard Statement(s): Not applicable.

Precautionary Statement(s): Not applicable.

Hazards Not Otherwise Classified: Not applicable.

Ingredients(s) with Unknown Acute Toxicity: Not applicable.

3. COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

Substance: White cast iron

Other Designations: White cast iron (iron, ferrium, iron powder).

Components are listed in compliance with OSHA's 29 CFR 1910.1200; for the actual values see the Certificate of Analysis.

Hazardous Component(s)	CAS Number	EC Number (EINECS)	Nominal Mass Concentration (%)
Iron powder	7439-89-6	231-096-4	100

SRM 338 Page 1 of 6

4. FIRST AID MEASURES

Description of First Aid Measures:

Inhalation: If adverse effects occur, remove to uncontaminated area. If not breathing, give artificial respiration or oxygen by qualified personnel. Seek immediate medical attention.

Skin Contact: Wash skin with soap and water.

Eye Contact: Flush eyes with water for at least 15 minutes. If necessary, seek medical attention.

Ingestion: If adverse effects occur after ingestion, seek medical treatment.

Most Important Symptoms/Effects, Acute and Delayed: May cause irritation.

Indication of any immediate medical attention and special treatment needed, if necessary: If any of the above symptoms are present, seek medical attention if needed.

5. FIRE FIGHTING MEASURES

Fire and Explosion Hazards: Negligible fire hazard. Dust air mixtures may ignite or explode. Avoid generating dust. See Section 9, "Physical and Chemical Properties" for flammability properties.

Extinguishing Media:

Suitable: Dolomite, dry powder for metal fires, dry sand, graphite, soda ash, sodium chloride.

Unsuitable: None listed.

Specific Hazards Arising from the Chemical: None listed.

Special Protective Equipment and Precautions for Fire-Fighters: Avoid inhalation of material or combustion byproducts. Wear full protective clothing and NIOSH approved self-contained breathing apparatus (SCBA).

```
NFPA Ratings (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)
```

Health = 1

Fire = 0

Reactivity = 0

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Any accumulated material on surfaces should be removed and properly disposed of. Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection".

Methods and Materials for Containment and Clean up: Collect spilled material in appropriate container for disposal. Clean up residue with a high-efficiency particulate filter vacuum. Keep unnecessary people away, isolate hazard area and deny entry.

7. HANDLING AND STORAGE

Safe Handling Precautions: Minimize dust generation and accumulation on surfaces. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. See Section 8, "Exposure Controls and Personal Protection".

Storage: Store and handling in accordance with all current regulations and standards. Store in original container in a cool dry place.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits: No occupational exposure limits have been established for marine sediment. This material is a particulate matter and adequate inhalation/respiratory protection should be used to minimize exposure. The exposure limits for Particulates Not Otherwise Regulated (PNOR) are applicable.

OSHA (PEL): 15 mg/m³ (TWA, total particulates not otherwise regulated)

OSHA (PEL) 5 mg/m³ (TWA, respirable particulates not otherwise regulated)

NIOSH (REL): 10 mg/m³ (TWA, total particulates not otherwise regulated, 8 h)

NIOSH (REL): 5 mg/m³ (TWA, respirable particulates not otherwise regulated)

Engineering Controls: Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

SRM 338 Page 2 of 6

Personal Protection: In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material.

Respiratory Protection: If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

Eye/Face Protection: Wear splash resistant safety goggles with a face shield. An eye wash station should be readily available near areas of use.

Skin and Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Chemical-resistant gloves should be worn at all times when handling chemicals.

9. PHYSICAL AND CHEMICAL PROPERTIES

Descriptive Properties:					
Appearance	white to gray powder				
(physical state, color, etc.):					
Molecular Formula:	Fe				
Molar Mass (g/mol):	55.85				
Odor:	not available				
Odor threshold:	not available				
рН:	not available				
Evaporation rate:	not applicable				
Melting point/freezing point (°C):	1535 (2795 °F)				
Specific Gravity (water=1)	not available				
Vapor Pressure (mmHg):	not applicable				
Vapor Density (air = 1):	not applicable				
Viscosity (cP):	not applicable				
Solubility(ies):	insoluble in water				
Partition coefficient (n-octanol/water):	not available				
Particle Size:	45 to 100 μm				
Thermal Stability Properties:					
Autoignition Temperature (°C):	not available				
Thermal Decomposition (°C):	not available				
Initial boiling point and boiling range (°C):	2750 (4982 °F)				
Explosive Limits, LEL (Volume %):	not available				
Explosive Limits, UEL (Volume %):	not available				
Flash Point (°C):	not available				
Flammability (solid, gas):	not available				
10. STABILITY AND REACTIVITY					
Reactivity: Stable at normal temperatures and pressure.					
Stability: X Stable Unstable					
Possible Hazardous Reactions: Dust/air mixtures may ignite or explode.					
Conditions to Avoid: Avoid generating dust. Avoid heat flames, sparks and other sources of ignition.					
Incompatible Materials: Oxidizers, acids, halogens, halogenated compounds, peroxides, metal salts.					
Fire/Explosion Information: See Section 5, "Fire Fighting Measures".					
Hazardous Decomposition: Combustion will produce oxides of iron.					
Hazardous Polymerization: Will Occur X Will Not Occur					

SRM 338 Page 3 of 6

Symptoms Related to the Physical, Chemical and Toxicological Characteristics: Generated dust may cause rritation if inhaled. Potential Health Effects (Acute, Chronic and Delayed): Inhalation: Dust may cause irritation due to mechanical action. Chronic exposure may result in mottling of the lungs, a condition known as siderosis, chronic bronchitis, emphysema, and dyspnea. Skin Contact: May cause mechanical irritation. Eye Contact: May cause mechanical irritation. Chronic exposure may cause conjunctivitis. Ingestion: Absorption of elemental iron in doses greater than 20 mg/kg may produce symptoms; doses greater than 60 mg/kg may produce significant toxicity, and doses greater than 180 mg/kg may be lethal. Chronic or repeated exposure may cause hemosiderosis or hemochromatosis. Numerical Measures of Toxicity: Acute Toxicity: Not classified. Rat, Oral LD50: 30 g/kg Skin Corrosion/Irritation: Not classified; no data available. Serious Eye damage/ Eye irritation: Not classified; no data available. Skin Sensitization: Not classified; no data available. Skin Sensitization: Not classified, no data available. Tumorigenic: Not classified. Rat, Intertracheal TDLo: 450 mg/kg (15 weeks) Carcinogenicity: Not classified. Listed as a Carcinogen/Potential Carcinogen	Route of Exposure:	X	Inhalation	X	Skin		Inges	tion
